Title	<p>A Participatory Approach to Improve Understanding Towards Solving Water Problems in the Negotiations Between Israel and the Palestinian Authority, Middle East</p>
Objectives	<ol style="list-style-type: none"> 1. To conduct research on shared water resource between the West Bank and Israel that aims to identify the pollution sources in the study area and to assess the impact of these pollution sources on the shared water resources. 2. To strengthen the capacity building of the local governmental and non-governmental organizations through a program of research, training and public awareness for the civil society in the study area about issues related to water in the final status negotiations so that an agreement at the end would have been fairly discussed and its terms evaluated.
Project Partners	<p>Center for Applied Research in Education</p>

Project Outputs
